## LITTLE GEOMETRIC STAINED GLASS COLORING BOOK

Dover Publications Inc., United States, 2000. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book. This unique coloring book will introduce you to many attractive designs made up of rectangles, squares, and other basic geometric shapes. You ll find stars composed of triangles, a large box filled with cubes, an interesting design of many-sided figures, and other eye-catching patterns all boldly outlined on translucent paper. The pictures are printed on special paper that allows light to shine through. First cut the pages from the book as neatly as you can. Then color the pictures, using crayons, felt-tip pens, or paints. You ll get particularly interesting effects if you color both sides, using different colors on the backs than on the fronts. When the pictures are taped to a window, the sunlight shines through them the same way it shines through colored glass.
