

Flash Reaction Processes Nato Science Series E

Filesize: 9.08 MB

Reviews

Thorough information! Its such a good study. Sure, it is perform, still an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Evie Emmerich)

FLASH REACTION PROCESSES NATO SCIENCE SERIES E

To get **Flash Reaction Processes Nato Science Series E** eBook, make sure you refer to the button under and save the ebook or get access to other information that are have conjunction with FLASH REACTION PROCESSES NATO SCIENCE SERIES E ebook.

Springer. Paperback. Book Condition: New. Paperback. 375 pages. Dimensions: 9.4in. x 6.3in. x 0.9in. Flash Reaction Processes brings together for the first time contributions by researchers working on metal refining processes, mineral calcination processes and the plasma processing of ceramics. Distinctive features and problems common to these processes are discussed and compared: some physical and/or chemical transformation of an inorganic material is sought by means of very rapid heating and cooling; the feed materials are usually in particular form, often finely divided; the heating is achieved by combustion gases, plasma jets or microwaves; the products are of scientific and/or commercial interest. The contributions have been grouped as follows: (i) fundamental studies of the physics and chemistry of processes driven by the rapid heating of particles of reactive material; (ii) mathematic modelling of such processes; (iii) experimental studies on the laboratory scale; (iv) experience from the operation of pilot scale and full scale flash reactors; and (v) processes which may benefit from the application of flash heating technology. The book will be of interest to anyone working on fundamental or applied aspects of modern metal refining, mineral processing, plasma ceramic coating technology, rapid prototyping or other processes which require controlled transformation of reactive or nonreactive particles by short duration heating and cooling cycles. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
