THE GENIUS PROJECT MANAGER

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is about Genius-the actual, real thing. It explains what Genius is, how Geniuses can know what others cannot know, where their unique ideas come from and how to fully develop Genius in yourself. It explains how and why Genius speaks only its own language, that of the non-conscious mind, which is entirely non-linear-the only non-linearity that human brains can know. Genius does not speak the fragmented, sequential, linear languages of waking consciousness that occupy most of our time, like the natural languages, composed of words; mathematics, composed of numbers; or computer code, composed of both. Ultimately, this book is about becoming the person you intended yourself to be. The Genius Walt Whitman, was calling us to it when he wrote, Failing to fetch me at first, keep encouraged. Missing me one place, search another. I...
