SECONDARY SCHOOL MATERIALS: CHEMICAL ENERGY KNOWLEDGE

To get **secondary school materials: chemical energy knowledge** eBook, you should follow the hyperlink listed below and download the ebook or get access to other information which are in conjunction with SECONDARY SCHOOL MATERIALS: CHEMICAL ENERGY KNOWLEDGE book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 178 Language: Chinese. Publisher: Chemical Industry Press Pub. Date :2000-11-01. chemical energy knowledge describes the chemical energy of the basic principles and applications. The book is divided into five chapters. The first chapter is an introduction. Chapter II discusses the energy balance of the steady flow system to explain the first law of thermodynamics and its application in the steady flow system. also introduced the calculation of thermodynamic properties of real gases. The third chapter discusses the basic principles of chemical energy. Through the discussion of the second law of thermodynamics to study the nature of the energy loss . established the first law of thermodynamics and second law of combining the modern with the energy theory. Second. the three chapters is the theoretical basis of the book. The fourth chapter introduces the basic principles of thermodynamics Thermodynamics of chemical process analysis method. and Typical chemical unit processes and chemical production equipment for the thermodynamic analysis. is the application of the basic principles of chemical energy. the fifth chapter is the chemical industry energy-saving technologies introduction. discuss how rational use of energy. introduces several new technologies mature and chemical energy. medium Professional school materials: chemical energy knowledge used in chemical technology classes and related professional secondary. higher vocational schools are also available for chemical technology and related professional class use. and management personnel for the chemical industry. engineering and technical personnel for reference. Contents: 1 Introduction 11.1 duality of energy and energy development and utilization of 11.2 current situation and development 11.3 chemical energy in the important position of national economic construction 21.4 potential to save energy and chemical industry 31.5 way the nature of this...
